Thursday 5th June

- Reading Club 8:10am - 8:40am

Friday 6th June

- Summer PSSA Round 6
- Stage 3 Assembly (Years 5 and 6)

Message from The Principal

In today's digital world, ensuring the safety of our children online has become more critical than ever. As technology continues to evolve, so do the potential risks associated with it. Cyber safety is not just a buzzword; it's a vital aspect of our children's well-being.

Parents play a pivotal role in fostering a safe online environment for their children. One of the most effective ways to achieve this is by actively monitoring their children's devices and social media usage. By keeping an eye on what platforms they are using and who they are interacting with, parents can help prevent exposure to inappropriate content and cyberbullying.

Moreover, it's essential for parents to be aware of the age restrictions set by social media platforms. These guidelines are put in place to protect young users from harmful interactions and content that may not be suitable for their developmental stage. For example, many popular platforms **users need to be at least 13 years old to create an account. In December, Australia Law will require users to be at least 16 years old.** Understanding these restrictions can help parents make informed decisions about their children's online activities.

Encouraging open conversations about online safety and the importance of privacy can empower children to make safer choices. Together, we can foster a safer digital landscape for our children, ensuring they navigate the online world with confidence and security.

As we embrace the benefits of technology, let's not forget our responsibility to guide our children in using it wisely. Cyber safety is a shared journey that requires vigilance, understanding, and proactive engagement from both parents and educators.

Mr Vincent
Rel. Principal.
